

December 10th, 2023

Welcome to KOIAS, Prof. Tonino Griffero!

KOIAS cordially welcomes Prof. Tonino Griffero (Rome Tor Vergata University), who will collaborate with our research team from December 2023 to the end of February 2024 as a Visiting Professor of Kobe University. His research network *Atmospheric Spaces* and KOIAS made an Agreement in September 2022. We will now work together for three months mainly on the research project for the establishment of Cross-Cultural Atmospheric Studies.
