At the KOIAS-collaborating art exhibition at the Koriyama City Museum of Art in Fukushima Prefecture, entitled in Japanese: “Fun’iki wo Tenji suru” (Exhibiting the Atmosphere), Yuho Hisayama (KOIAS) gave a gallery talk about Atmospheric Studies of Art. This exhibition has started in January and will end on the April 21. Mao Matsuyama (KOIAS) and Rie Kodera (KOIAS) have also been the collaborating members. We thank Koriyama City Museum of Art for this great opportunity and look forward to further collaboration.
