The Kobe Institute for Atmospheric Studies (KOIAS) is pleased to announce the publication of a special volume in the online journal *Contemporary Aesthetics*. This issue, titled **“Atmospheric Design and Everyday Aesthetics” (Special Volume 12, 2024)**, includes a contribution by KOIAS member **Mao Matsuyama**.

Matsuyama’s article, which she co-authored with Megumi Kawamura and Jaeyoung Heo, explores atmospheres in everyday environments, employing an interdisciplinary approach that combines aesthetics, environmental psychology, and architectural environmental studies.

KOIAS encourages readers to engage with this work and welcomes feedback to further refine its interdisciplinary research approach.
