

KOIAS ART PROJECT #3 | Soh Souen
Talk Session from Taipei

As a pre-event of KOIAS Art Project #3, we held a talk session with Soh Souen.

We held this event at YIRI ARTS, the venue of his solo exhibition "Sometimes you get hurt. Yet still you keep looking for a tender relationship with the world.", and many people participated in the live online streaming.

Our talk included his recent representative works such as "Eggsercise," a performance using eggs, and "Bellybutton and Breathing," as well as new paintings, "Re Covering - Thousands of lives," and "etude for coexisting with differences". We talked about the process of his creation and the ideas behind them, which brought inspiring perspective to the atmospheric studies.

We would like to thank our guest, Soh Souen, YIRI ARTS and everyone involved for this support and all the participants!
