CLOSS TALK: Mao Matsuyama × Akira Mizuno

Solo Exhibition “Akira Mizuno: Layers of Vision | Layers of Painting” in Gunma

The solo exhibition of artist Akira Mizuno, who was welcomed to Kobe last year as a guest for KOIAS Art Project #1, opened at the Museum of Modern Art, Gunma on September 13. As a related event, KOIAS member Mao Matsuyama participated in the Cross Talk held on September 15.

Based on previous research and collaborations, the discussion explored Mizuno's works and making process from an atmospheric perspective, creating a rich opportunity for dialogue that also included discussion with the audience.

An exhibition catalog, featuring contributions by Mao Matsuyama, is scheduled for publication in early November.
