JSPS Core-to-Core Seminar for Atmospheric Studies at ZRS Koper, Slovenia

On June 17, 2025, a seminar for Atmospheric Studies was held at the Science and Research Centre (ZRS) in Koper, Slovenia, co-organized by KOIAS (Kobe University) and ZRS Koper. The event marked the launch of the newly awarded JSPS Core-to-Core Program: *World Networking Project for the Establishment of Atmospheric Studies*, a five-year international initiative supported by the Japan Society for the Promotion of Science (JSPS).

The seminar opened with a presentation of the Core-to-Core program's aims and structure, followed by two sessions of short talks by affiliated researchers. These presentations explored new perspectives and possibilities of collaboration in Atmospheric and Respiratory Studies. The event featured active dialogue among scholars from Japan, Slovenia, Germany, Canada, and beyond, reflecting the global reach and collaborative spirit of the new network.

The Core-to-Core seminar took place as part of the international symposium *Philosophy, Poetics, and Arts of Liminality: Interdisciplinary Perspectives*, held at ZRS Koper from June 17 to 19, 2025.
