KOIAS Fellows Meeting with KOIAS Visiting Professor Jürgen Hasse

The most recent KOIAS Fellows meeting took place on November 5, 2025, at Kobe University and featured a special presentation by KOIAS Visiting Professor Jürgen Hasse. Professor Hasse discussed ideas from his text *“Atmospheres as Expressions of Medial Power: Understanding Atmospheres in Urban Governance and under Self-Guidance.”* He guided participants through the reading by offering illustrative examples and further theoretical clarifications. Several of the examples he shared drew on his experiences as a visiting professor at Kobe University since September 2025. The session concluded with an engaging discussion, as participants raised questions and comments about his ideas.
