KOIAS Fellows Meeting – Architexts: Reading Workshop with Hal Coase

A KOIAS Fellows Meeting was held on March 4, 2026, at Kobe University and took the form of a reading workshop titled *Architexts*, led by KOIAS Fellow **Hal Coase**. After a brief presentation on a selection of texts by Mei-mei Berssenbrugge, Lisa Robertson, and Renee Gladman that explore the boundaries between the body, writing, and built space, the workshop developed into an open exchange among participants.

On the same occasion, the group also welcomed two new KOIAS Fellows, **Andrea Nicolini** and **Victoria dos Santos**, marking the beginning of their participation in the KOIAS research community.
